

CLASSIC CHAMBERS
Exclusive Mobile Loos

Glamour & Sport | Flame Red

THE NEXT GENERATION

Exclusive fresh water loos

Unique to Classic Chambers, **WC3** are exceptional washroom facilities for high class events. Designed to create an ultra stylish statement in combination with the latest fresh water vacuum technology.

WC3 Glamour & Sport | Flame Red features Audrey Hepburn, Sophia Loren, Marilyn Monroe and Brigitte Bardot in the ladies. The sporting theme in the gents involves a jumping Geoff Hurst, Bobby Moore with fellow world cup winners and scenes from a rugby international at Cardiff. Finally there is a dash for the finish line at the White City Stadium in London.

classicchambers.co.uk

Fresh Technology

- JETS™ Vacuum operated, fresh water flush (0.5l per flush)
- Odour-free and Chemical-free

Vacuum flushing technology means that with each flush the air in the WC cubicle is replaced with fresh air from outside, eliminating any odour problems that could occur with more conventional systems. A vacuum-based flush also means splash-free flushing thereby helping to maintain clean facilities throughout your event.

WC3 can operate as a self-contained system using the integral tanks or it has the flexibility of being able to be connected to mains facilities if required. Connecting a WC3 to mains services increases the capacity of the system and it can significantly reduce hire costs.

Capacity¹

Self-contained mode	250 people
Mains mode	300 people

External dimensions²

Height	3.15m
Width	2.35m
Length including tow frame	6.85m
Length excluding tow frame	5.60m

¹ The stated capacities are given as a guide only for a 10 hour event with moderate alcohol consumption. Please contact us for a more accurate estimate of requirements based on the details of your event.

² The quoted dimensions are given as a guide only. There is a small variation between individual trailers and if you are concerned with access for your event please contact one of our team who can advise you accordingly. Please also note that once in position the access steps will need to be installed and this adds approximately 1m to the width of the trailers.
